Eco-Friendly Transportation Policy

The college maintains a strict policy framework to eliminate vehicle-related emissions within the main academic zones:

- Restricted Vehicle Entry: To maintain a clean, peaceful, and low-noise campus environment, the entry of student-owned motorized vehicles, including cars and motorcycles, into the main classroom areas is strictly restricted. Students are required to park their vehicles only in the designated parking areas.
- The students from nearby areas are strictly instructed to use only Bicycles instead of Motorcycles or Scotties.
- Shared Transportation: Faculty members and employees travelling from similar locations are encouraged to share vehicles whenever possible.
- Pedestrian-Friendly Campus: The interior design of the college prioritizes walking. The campus features well-paved, pedestrian-friendly pathways and interlocking walkways that interconnect all major academic and administrative blocks.

Eco-Friendly Transportation Practices and Impact

Furkating College (Autonomous) promotes environmentally responsible transportation practices among students, teaching staff, non-teaching employees and other members of the campus community. Since transportation is an important source of fuel consumption, air pollution and greenhouse-gas emissions, the College encourages walking, cycling, public transportation and shared mobility wherever feasible.

1. Eco-Friendly Transportation Practices

1.1 Walking and Cycling

Students and employees who live within a reasonable distance are encouraged to walk or cycle to the College. Walking and cycling also promote physical fitness and reduce dependence on motorised vehicles.

Photographic evidence

1.2 Use of Public Transportation

The College community is encouraged the students to use public transportation wherever it is convenient and available. Travelling by bus and other shared public-transport facilities can reduce the number of individual vehicles travelling to and from the campus.

Photographic evidence

1.3 Shared Transportation

Faculty members and employees travelling from similar locations are encouraged to share vehicles whenever possible.

Photographic evidence

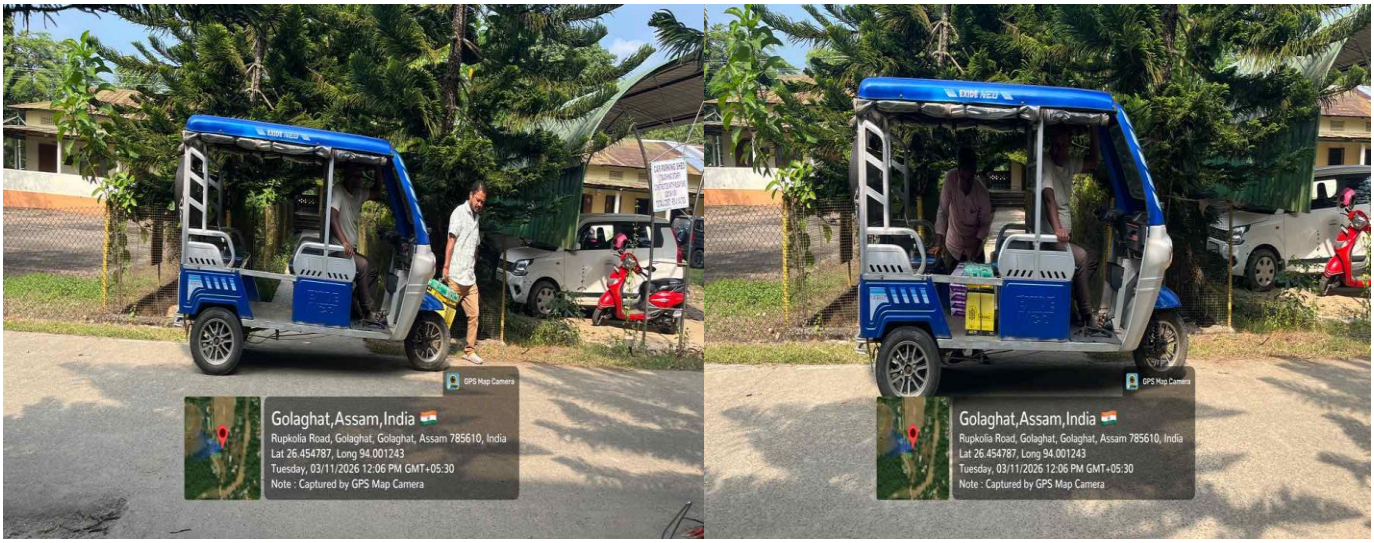

1.4 Utilisation of Electronic Vehicle

The college utilises an electric vehicle for transporting small equipment within the campus, thereby promoting eco-friendly transportation and supporting a cleaner, greener, and more sustainable campus environment.

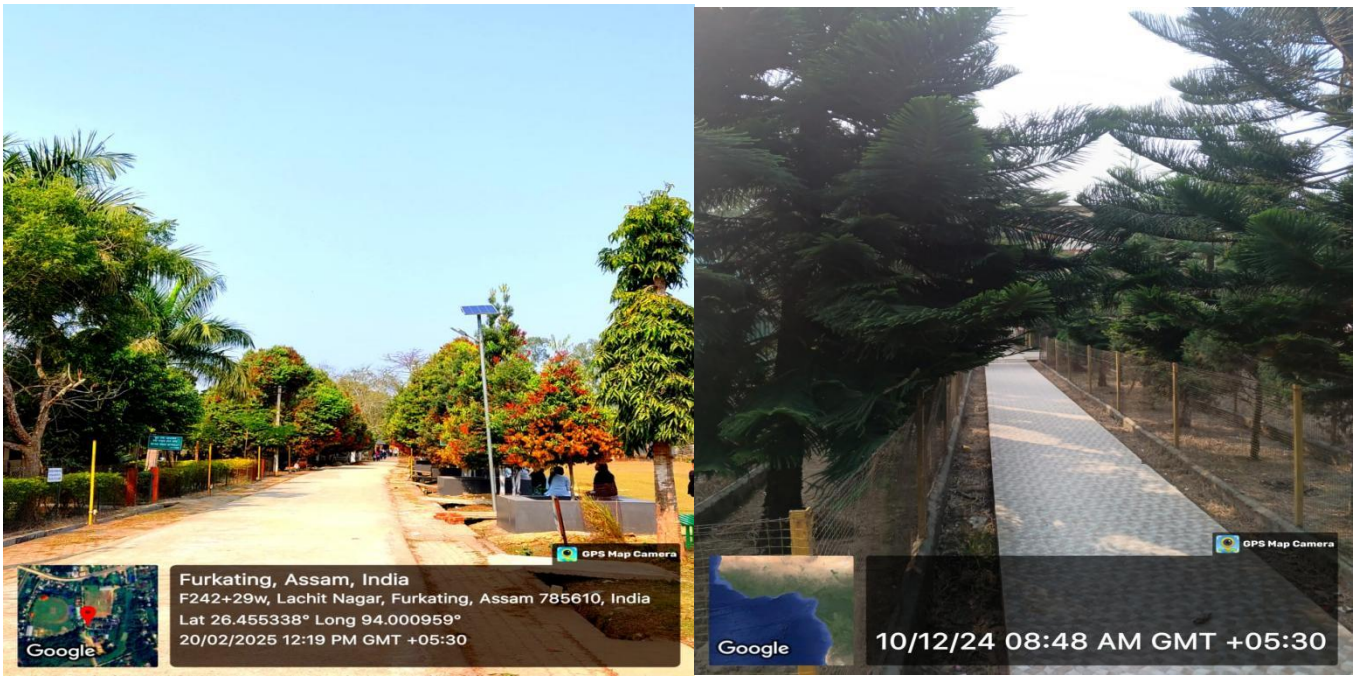

Photographic evidence

1.5 Minimising Unnecessary Vehicle Movement on Campus

Unnecessary movement of vehicles within the campus is discouraged.

1.6 Padestrian friendly campus

All these practices contribute to the development of a cleaner, healthier and more sustainable campus while creating awareness about environmentally responsible mobility.
